

## Proof of rate-relevant characteristics

EURO emission class, drive type

Application form

### Notes

- Rate-relevant characteristics that are subject to verification are: EURO IV, EURO V, EEV, EURO VI and E/H2. EURO I, II and III do not have to be proven.
- Make sure that all information about your vehicle is correct and that it matches the information stored on the GO-Box.
- If you want to send in the documents of proof for more vehicles, please use the „Application Form Annex“, which is available at [go-maut.at](http://go-maut.at) under Downloads.
- Please attach a copy of the vehicle registration to this application form.

Rate-relevant  
characteristics

***Which documents are required to prove the rate-relevant characteristics?***

In any case, you need (a copy of): **vehicle registration certificate** (all pages)

If the rate-relevant characteristics are not clearly stated in the vehicle registration certificate, please send us (copies of) additional documents. These include in particular:

- CoP document (Conformity of Production)
- CEMT evidence of conformity with the technical and safety requirements for a motor vehicle
- CoC document (Certificate of Conformity)

In the case of electronic transmission, please send us the verification documents in PDF, JPG or TIF format. Other formats are not processed by us and the evidence is considered as not having been provided!

**Data protection**

Further information on the type and scope of personal data processed by ASFINAG and on your right to disclosure, correction, deletion, limiting processing, revocation and transferability can be found at [www.asfinag.at/privacy](http://www.asfinag.at/privacy). You can contact our data protection officer at [datenschutz@asfinag.at](mailto:datenschutz@asfinag.at) and also the competent supervisory authority via email.
